Latex Paint Waste Disposal and Reduction Tips

- Water-based latex paint can be disposed of in regular household garbage **IF** it is completely dried out.
- Mixing the paint with kitty litter, dirt, or concrete-mix will help speed the drying process.
- Dry cans of paint, with lids removed, can be discarded in the trash.
- Buy only what you need by carefully estimating the square footage of the surfaces to be painted. One gallon of paint will cover about 350 square feet.
- Ask your local paint store if they provide small (1-2 ounce) samples for color testing before investing in gallons of paint.
- Apply extra coats if you have excess paint.
- Give any leftover paint to a neighbor in need.
