

**EIGHTH AMENDED PUBLIC HEALTH ORDER 20-28 SAFER AT HOME AND IN
THE VAST, GREAT OUTDOORS**

June 30, 2020

PURPOSE OF THE ORDER

I issue this Amended Public Health Order (PHO or Order) pursuant to the Governor's directive in **Executive Order D 2020 091** as amended by **Executive Order D 2020 123** in response to the existence of thousands of confirmed and presumptive cases of Coronavirus disease 2019 (COVID-19) and related deaths across the State of Colorado. Further, as there is substantial evidence of community spread of COVID-19 throughout the State, it is crucial to take measures now that can mitigate further spread of disease in our communities.

FINDINGS

1. Governor Polis issued **Executive Order D 2020 003** on March 11, 2020, declaring a disaster emergency in Colorado due to the presence of COVID-19. Since that time, the Governor has taken numerous steps to implement measures to mitigate the spread of disease within Colorado, and has further required that several public health orders be issued to implement his orders.
2. I have issued public health orders pertaining to the limitation of visitors and nonessential individuals in skilled nursing facilities, intermediate care facilities, and assisted living residences; closing bars and restaurants to in-person services; defining the terms of the Governor's stay at home requirements and critical business designations; requiring hospitals to report information relevant to the COVID-19 response; and requiring the wearing of face coverings in the workplace and urging their use in public. These measures all act in concert to reduce the exposure of individuals to disease, and are necessary steps to protect the health and welfare of the public. Additionally, in reducing the spread of disease, these requirements help to preserve the medical resources needed for those in our communities who fall ill and require medical treatment, thus protecting both the ill patients and the healthcare workers who courageously continue to treat patients.
3. As of June 29, 2020, there are 32,715 known cases of COVID-19 in Colorado, 5,489 Coloradans have been hospitalized and 1,520 Coloradans have died from COVID-19. Multiple sources of data show that COVID-19 transmission and the use of healthcare due to COVID-19

have leveled off in Colorado. Our work to “flatten the curve” appears to be succeeding, and the Governor has ordered some lessening of the current Safer at Home restrictions as a result.

4. **Executive Order D 2020 091 Safer at Home and in the Vast, Great Outdoors** as amended by **Executive Order D 2020 123** still strongly encourages that people at risk of severe illness from COVID-19, also known as **Vulnerable Individuals**, remain at home or in the great outdoors as much as possible, but allows limited reopening of postsecondary institutions and certain businesses. Additionally, individuals are encouraged to stay at home as much as possible and practice **Social Distancing** to reduce the likelihood of disease transmission, but certain activities, such as gathering in groups of no more than ten for activities, are permitted. As we continue to combat COVID-19 in our communities, continuing restrictions on individual travel and necessary activities remain appropriate.

INTENT

This Order sets forth the requirements for implementation of **Safer at Home and in the Vast, Great Outdoors**, as directed by Governor Polis. Individual restrictions remain in place concerning limitations on activities, travel, and public gatherings. Workplace restrictions remain necessary to implement standard **Social Distancing Requirements**, cleaning standards, and other items necessary to reduce the possibility of disease spread. Additionally, certain businesses and activities require specific guidance based on their business practices, and those are included in the appendices to this Order.

ORDER

Unless otherwise specifically noted in this Order, the requirements of this Order are effective June 30, 2020 and expire 30 days from June 30, 2020. This Order supersedes and replaces Public Health Orders 20-22 and 20-24, as amended.

I. **Safer at Home and in the Vast, Great Outdoors**

A. All individuals currently living within the State of Colorado are encouraged to stay at home or in the vast, great outdoors and avoid unnecessary interactions whenever possible in order to reduce the spread of disease. Individuals living in shared or outdoor spaces must at all times, to the greatest extent possible, comply with **Social Distancing Requirements**, defined in Section III below, and are encouraged to leave their residences only to perform or utilize **Necessary Activities**, defined in Section III below.

B. Individuals are urged to wear non-medical cloth face coverings that cover the nose and mouth whenever in public as required by **Executive Order D 2020 091** as amended by **Executive Order D 2020 123**.

C. All public and private gatherings are limited to no more than ten (10) individuals, except for the purposes expressly permitted in this PHO, which include **Necessary Activities**. Nothing in this Order prohibits the gathering of members living in the same residence.

D. People at risk of severe illness from COVID-19 are urged to stay in their residence at all times except as necessary to seek medical care. People at risk of severe illness from COVID-19 cannot be compelled to work for any business or government function, including a Critical Business or Critical Government Function, during the pendency of this pandemic emergency. People who are sick must stay in their residence at all times except as necessary to seek medical care, and must not go to work, even for a **Critical Business**, defined in Section III below.

E. Individuals who are sick or are experiencing flu-like symptoms should get tested for COVID-19, and must self-isolate until their symptoms cease or until they have a negative test result. If an individual has tested positive for COVID-19 and/or has developed symptoms of COVID-19, including early or mild symptoms (such as cough and shortness of breath), they should be in isolation (staying away from others) until they have had no fever for at least seventy-two (72) hours (that is three full days of no fever without the use of medicine that reduces fevers), other symptoms have improved (such as cough or shortness of breath), and at least ten (10) days have passed since symptoms first appeared. Coloradans who are sick and receive negative COVID-19 test results should continue to stay home while they are sick and should consult with their healthcare provider about the need for additional testing and the appropriate time to resume normal activities.

F. Governmental and other entities are strongly urged to make shelter available to people experiencing homelessness as soon as possible and to the maximum extent practicable, and are authorized to take all reasonable steps necessary to provide non-congregate sheltering along with necessary support services to members of the public in their jurisdiction as necessary to protect all members of the community. Local authorities have the discretion to close recreation as needed.

APPENDIX G: COUNTY VARIANCE REQUESTS

Governor Jared Polis issued **Executive Order D 2020 044 Safer at Home** effective April 27, 2020, updated with **Executive Order D 2020 079**, and now replaced with **Executive Order D 2020 091 Safer at Home in the Vast, Great Outdoors** as amended by **Executive Order D 2020 123**. The key elements of the Order are that most people still stay at home as much as possible and avoid unnecessary social interactions; vulnerable populations continue to stay at home except to support or perform necessary activities or participate in critical government functions or critical businesses; there is limited reopening of postsecondary institutions, and certain business operations are permitted; people are still encouraged to stay within their county of residence or employment as much as possible; public and private gatherings of more than ten (10) persons are prohibited; and Coloradans are advised to wear non-medical cloth face coverings that cover the nose and mouth whenever in public, except where doing so would inhibit that individual's health, in which case reasonable accommodations should be pursued to maintain the safety and health of all parties.

Any county that desires to apply for a variance from part or all of the executive order may do so after meeting the following criteria and submitting an alternative COVID-19 suppression plan to be approved or denied by the Colorado Department of Public Health and the Environment (CDPHE). The application must be submitted directly to CDPHE through the online application process, found [here](#).

Criteria for variance consideration:

- 1) The local public health agency endorses the alternative plan;
- 2) Local hospitals can verify that they have the capacity to serve all people needing their care;
- 3) The county commissioners or, in the case of the City and County of Denver, the mayor of Denver, or, in the case of the City and County of Broomfield, the city council, vote affirmatively to adopt the alternative plan in place of the state Safer-At-Home order; and
- 4) Counties with sovereign tribal nations (Ute Mountain Ute and Southern Ute Indian tribes) must obtain a letter of support from tribes and include it with their variance application.

The local variance process allows communities that are not experiencing a high rate of transmission to tailor social distancing policies to local conditions, in order to promote community wellness and economic stability. To protect other communities and hospital systems statewide, it is paramount that the local variance process only be used when transmission is at a low enough level to be suppressed through testing and containment efforts to detect positive cases, ensure successful isolation and quarantine close contacts. Examples of local conditions that should be considered in seeking a variance include: a low number of new cases per day,

cases declining for the past 14 days, incidence below the state average, declining positive tests as a percent of total tests for the past 14 days, low and stable case growth rate or equivalent, and having an early warning system to detect an increase in community spread or outbreaks, with triggers for tightening restrictions to prevent a breach of local hospital system capacity. Considerations and triggers should be documented in the plan submitted to CDPHE.

Variance requests will be evaluated based on local epidemiological data to assess whether the county requesting the variance has a disease prevalence that is low, medium, or higher than the statewide average. If higher, other metrics may be considered such as two-week case trend, percent positivity of tests and, whether outbreaks exist and are contained. The variance will be commensurate with the local virus transmission and disease burden.

CDPHE is available to provide technical assistance to any county considering a variance. The department will consider applications for variances based on the submitted plan's rationale for a step down and the presence of an early warning system with triggers for tightening back up. CDPHE reserves the right to approve or deny applications. All variances granted pursuant to this Order remain in effect until the Order expires without further extension or is terminated, unless automatically rescinded pursuant to the terms of the variance approval by CDPHE, rescinded for other reasons by CDPHE, or rescinded by the county.

Approved local variances may be rescinded at the discretion of the local public health agency based on changes to State executive or public health orders. If a variance request is rescinded at the local level, the state orders will remain in effect. Local public health agencies may also choose to maintain approved variance requests in the event that a State order becomes less restrictive than the approved variance. At no point may an approved variance request be altered to be less restrictive in any aspect than state orders without updated approval from the Colorado Department of Public Health and Environment.

Counties that choose to not comply with this executive order or an approved variance will be subject to the loss of emergency preparedness funds.
